

EIF1AY-eukaryotic translation initiation factor 1A, Y-linked Gene

Reference: PTXBC005248

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	eIF-4C; eukaryotic translation initiation factor 1A, Y-chromosomal; eIF-1A Y isoform; eukaryotic translation initiation factor 1A, Y chromosome; eukaryotic translation initiation factor 4C; eukaryotic translation initiation factor 1A, Y-linked		

For research use only.

GENE DESCRIPTION	eukaryotic translation initiation factor 1A, Y-linked
GENE ID	9086
ORIGIN SPECIES	Human
ACCESSIONS	BC005248
VECTOR	pDONR223
NCBI SYMBOL	EIF1AY
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
