

## C6orf105-chromosome 6 open reading frame 105 Gene

Reference: PTXBC007011

|                |                                                                                                                                                                |                     |                |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                            | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                           | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | C6orf105; AIG1L; dJ413H6.1; androgen-dependent TFPI-regulating protein; androgen-dependent TPF1-regulating protein; androgen dependent TFPI regulating protein |                     |                |
