

LRRC8D-leucine rich repeat containing 8 family, member D Gene

Reference: PTXBC009486

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	volume-regulated anion channel subunit LRRC8D; LRRC5; leucine rich repeat containing 5; leucine-rich repeat-containing protein 5; leucine-rich repeat-containing protein 8D; leucine rich repeat containing 8 family member D		

For research use only.

GENE DESCRIPTION	leucine rich repeat containing 8 family, member D
GENE ID	55144
ORIGIN SPECIES	Human
ACCESSIONS	BC009486
VECTOR	pDONR223
NCBI SYMBOL	LRRC8D
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
