## CCNC-cyclin C Gene

Reference: PTXBC010135

Product type:

DNA

Storage Condition:

-20°C

Size/Quantity:

2 ug

**Delivery Condition:**

+4°C, Blue Ice

### Synonyms

CycC; cyclin-C; SRB11 homolog; hSRB11; cyclin C

**For research use only.**

|                         |                                                                                                   |
|-------------------------|---------------------------------------------------------------------------------------------------|
| <b>GENE DESCRIPTION</b> | cyclin C                                                                                          |
| <b>GENE ID</b>          | 892                                                                                               |
| <b>ORIGIN SPECIES</b>   | Human                                                                                             |
| <b>ACCESSIONS</b>       | BC010135                                                                                          |
| <b>VECTOR</b>           | pDONR223                                                                                          |
| <b>NCBI SYMBOL</b>      | CCNC                                                                                              |
| <b>LENGTH</b>           | ProteoGenix bp                                                                                    |
| <b>SEQUENCE PRIMERS</b> | Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT<br>Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG |
