

## SCRN2-secernin 2 Gene

Reference: PTXBC010408

|                |                              |                     |                |
|----------------|------------------------------|---------------------|----------------|
| Product type:  | DNA                          | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                         | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | Ses2; secernin-2; secernin 2 |                     |                |

**For research use only.**

|                         |                                                                                                   |
|-------------------------|---------------------------------------------------------------------------------------------------|
| <b>GENE DESCRIPTION</b> | secernin 2                                                                                        |
| <b>GENE ID</b>          | 90507                                                                                             |
| <b>ORIGIN SPECIES</b>   | Human                                                                                             |
| <b>ACCESSIONS</b>       | BC010408                                                                                          |
| <b>VECTOR</b>           | pDONR223                                                                                          |
| <b>NCBI SYMBOL</b>      | SCRN2                                                                                             |
| <b>LENGTH</b>           | ProteoGenix bp                                                                                    |
| <b>SEQUENCE PRIMERS</b> | Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT<br>Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG |

### ORF (Only for reference, product provided without STOP codon )
