

## NETO2-neuropilin (NRP) and tolloid (TLL)-like 2 Gene

Reference: PTXBC012381

|                |                                                                                                                                                                                                                                   |                     |                |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                                                               | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                                                              | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | BTCL2; NEOT2; neuropilin and tolloid-like protein 2; brain-specific transmembrane protein containing 2 CUB and 1 LDL-receptor class A domains protein 2; neuropilin (NRP) and tolloid (TLL)-like 2; neuropilin and tolloid like 2 |                     |                |
