

## PHB-prohibitin Gene

Reference: PTXBC013401

|                |                                                                                                             |                     |                |
|----------------|-------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                         | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                        | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | HEL-215; HEL-S-54e; PHB1; epididymis luminal protein 215; epididymis secretory sperm binding protein Li 54e |                     |                |

**For research use only.**
