

REG4-regenerating islet-derived family, member 4 Gene

Reference: PTXBC017089

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	GISP; REG-IV; RELP; regenerating islet-derived protein 4; REG-4; REG-like protein; gastrointestinal secretory protein; reg IV; regenerating gene type IV; regenerating islet-derived family, member 4; regenerating islet-derived protein IV; regenerating fami		

For research use only.

GENE DESCRIPTION	regenerating islet-derived family, member 4
GENE ID	83998
ORIGIN SPECIES	Human
ACCESSIONS	BC017089
VECTOR	pDONR223
NCBI SYMBOL	REG4
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
