

SSR3-signal sequence receptor, gamma (translocon-associated protein gamma) Gene

Reference: PTXBC017203

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	TRAPG; translocon-associated protein subunit gamma; SSR gamma; TRAP-complex gamma subunit; TRAP-gamma; signal sequence receptor subunit gamma; signal sequence receptor, gamma (translocon-associated protein gamma); translocon-associated protein gamma subunit		

For research use only.

GENE DESCRIPTION	signal sequence receptor, gamma (translocon-associated protein gamma)
GENE ID	6747
ORIGIN SPECIES	Human
ACCESSIONS	BC017203
VECTOR	pDONR223
NCBI SYMBOL	SSR3
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
