

NALCN-sodium leak channel, non-selective Gene

Reference: PTXBC028390

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	CLIFAHDD; CanIon; IHPRF; IHPRF1; INNFD; VGCNL1; bA430M15.1; sodium leak channel non-selective protein; four repeat voltage-gated ion channel; voltage gated channel like 1; voltage gated channel-like protein 1; sodium leak channel, non-selective		

For research use only.

GENE DESCRIPTION	sodium leak channel, non-selective
GENE ID	259232
ORIGIN SPECIES	Human
ACCESSIONS	BC028390
VECTOR	pDONR223
NCBI SYMBOL	NALCN
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
