

Reference: PTXBC034377

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	APC; PROC1; THPH3; THPH4; vitamin K-dependent protein C; anticoagulant protein C; autoprothrombin IIA; blood coagulation factor XIV; prepro-protein C; type I protein C; protein C, inactivator of coagulation factors Va and VIIIa		

For research use only.

GENE DESCRIPTION	protein C (inactivator of coagulation factors Va and VIIIa)
GENE ID	5624
ORIGIN SPECIES	Human
ACCESSIONS	BC034377
VECTOR	pDONR223
NCBI SYMBOL	PROC
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
