

## C6orf97-chromosome 6 open reading frame 97 Gene

Reference: PTXBC060803

|                |                                                                                                   |                     |                |
|----------------|---------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                               | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                              | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | C6orf97; bA282P11.1; coiled-coil domain-containing protein 170; coiled-coil domain containing 170 |                     |                |

**For research use only.**

|                         |                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------|
| <b>GENE DESCRIPTION</b> | chromosome 6 open reading frame 97                                                               |
| <b>GENE ID</b>          | 80129                                                                                            |
| <b>ORIGIN SPECIES</b>   | Human                                                                                            |
| <b>ACCESSIONS</b>       | BC060803                                                                                         |
| <b>VECTOR</b>           | pDONR223                                                                                         |
| <b>NCBI SYMBOL</b>      | C6orf97                                                                                          |
| <b>LENGTH</b>           | ProteoGenix bp                                                                                   |
| <b>SEQUENCE PRIMERS</b> | Forward primer M13R (5'→3'): GTAAACGACGGCCAGT<br>Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG |

### ORF (Only for reference, product provided without STOP codon)
