

MMD2-monocyte to macrophage differentiation-associated 2 Gene

Reference: PTXBC067905

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	PAQR10; monocyte to macrophage differentiation factor 2; monocyte-to-macrophage differentiation-associated protein 2; progesterin and adipoQ receptor family member 10; progesterin and adipoQ receptor family member X; monocyte to macrophage differentiation ass		

For research use only.

GENE DESCRIPTION	monocyte to macrophage differentiation-associated 2
GENE ID	221938
ORIGIN SPECIES	Human
ACCESSIONS	BC067905
VECTOR	pDONR223
NCBI SYMBOL	MMD2
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
