

## SUPT7L-suppressor of Ty 7 (*S. cerevisiae*)-like Gene

Reference: PTXBC074000

|                |                                                                                                                                                                                                                                                          |                     |                |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                                                                                      | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                                                                                     | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | SPT7L; STAF65; STAF65(gamma); STAF65G; SUPT7H; STAGA complex 65 subunit gamma; SPTF-associated factor 65 gamma; STAF65gamma; STAGA complex 65 gamma subunit; adenocarcinoma antigen ART1; suppressor of Ty 7-like; SPT7-like STAGA complex gamma subunit |                     |                |

|                         |                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------|
| <b>GENE DESCRIPTION</b> | suppressor of Ty 7 ( <i>S. cerevisiae</i> )-like                                                 |
| <b>GENE ID</b>          | 9913                                                                                             |
| <b>ORIGIN SPECIES</b>   | Human                                                                                            |
| <b>ACCESSIONS</b>       | BC074000                                                                                         |
| <b>VECTOR</b>           | pDONR223                                                                                         |
| <b>NCBI SYMBOL</b>      | SUPT7L                                                                                           |
| <b>LENGTH</b>           | ProteoGenix bp                                                                                   |
| <b>SEQUENCE PRIMERS</b> | Forward primer M13R (5'→3'): GTAAACGACGGCCAGT<br>Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG |

### ORF (Only for reference, product provided without STOP codon)
