GIP-gastric inhibitory polypeptide Gene

Reference: PTXBC096146

Product type:

DNA

Storage Condition:

-20°C

Size/Quantity:

2 ug

Delivery Condition:

+4°C, Blue Ice

Synonyms

gastric inhibitory polypeptide; glucose-dependent insulinotropic polypeptide; incretin hormone

For research use only.

GENE DESCRIPTION	gastric inhibitory polypeptide
GENE ID	2695
ORIGIN SPECIES	Human
ACCESSIONS	BC096146
VECTOR	pDONR223
NCBI SYMBOL	GIP
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)

[illegible]
