

## RSPH1-radial spoke head 1 homolog (Chlamydomonas) Gene

Reference: PTXBC113367

|                |                                                                                                                                                                                                                    |                     |                |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                                                | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                                               | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | CT79; RSP44; RSPH10A; TSA2; TSGA2; radial spoke head 1 homolog; cancer/testis antigen 79; male meiotic metaphase chromosome-associated acidic protein; testes specific gene A2 homolog; testis specific A2 homolog |                     |                |
