

Reference: PTXBC117425

|                |                                                                                                                                                                                                      |                     |                |
|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                                  | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                                 | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | LARGE xylosyl- and glucuronyltransferase 1; LARGE; MDC1D; MDDGA6; MDDGB6; acetylglucosaminyltransferase-like 1A; acetylglucosaminyltransferase-like protein; glycosyltransferase-like protein LARGE1 |                     |                |

**For research use only.**

|                         |                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------|
| <b>GENE DESCRIPTION</b> | like-glycosyltransferase                                                                         |
| <b>GENE ID</b>          | 9215                                                                                             |
| <b>ORIGIN SPECIES</b>   | Human                                                                                            |
| <b>ACCESSIONS</b>       | BC117425                                                                                         |
| <b>VECTOR</b>           | pDONR223                                                                                         |
| <b>NCBI SYMBOL</b>      | LARGE                                                                                            |
| <b>LENGTH</b>           | ProteoGenix bp                                                                                   |
| <b>SEQUENCE PRIMERS</b> | Forward primer M13R (5'→3'): GTAAACGACGGCCAGT<br>Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG |

**ORF (Only for reference, product provided without STOP codon )**
