

## C20orf12-chromosome 20 open reading frame 12 Gene

Reference: PTXBC130341

|                |                                                                                                                                                                                                                                                   |                     |                |
|----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                                                                               | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                                                                              | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | ankyrin repeat-containing protein C20orf12; C20orf12; ANKRD64; C20orf84; bA189K21.1; bA189K21.8; dJ568F9.2; double zinc ribbon and ankyrin repeat-containing protein 1; ankyrin repeat domain 64; double zinc ribbon and ankyrin repeat domains 1 |                     |                |
